

Second Time Rubber Mulch

“The Recycler” Rubber Wattles
100% Recycled Fill Material

Description:

These rubber wattles can be used for inlet protection as well as multi-use applications for erosion and sediment control. The florescent orange color adds to the safety and visibility of these wattles. These wattles also come with handles that make installing and moving around the job site much easier. By using recycled rubber as the fill material, it increases the life and durability of the wattle.

Specifications for PVC Mesh Fabric:
